

Commitment letter

My bachelor's university has not yet replied to the Ministry of Higher Education of China about the confirmation of my bachelor's degree certificate. I have resubmitted it to the Chinese Higher Education website (<http://zwfw.cscse.edu.cn/>) and currently waiting for a response. I am committed to giving you the certificate as soon as possible, within a period not exceeding three months. Also, the master's degree certificates were not able to download from the (<https://www.chsi.com.cn>) website due to a problem in system. Therefore, I promise you that I will try to solve this problem and download the documents within a period of three months.
